

# PRICING BREAKDOWN

A one-time setup fee of \$20 is applied per design, charged once for each design/product type at the time of order placement. There is no additional charge for changes to personalization, such as names or numbers, within the same design (ideal for teams and events).

Pricing for brand-name tumblers is based on our cost and the Manufacturer's Suggested Retail Price (MSRP), with bulk standard engraving included in the per-item price. We are also happy to accommodate customizations for client-provided materials if that better suits your organization's needs.

Our quotes and charges are based on the actual production time allocated to your project, at a rate of \$1 per minute. This charge applies solely to production time, as quality control is performed personally by the owner and is not billed separately. We are committed to offering fair pricing in collaboration with the local businesses we serve.

During checkout, you will be prompted to upload your graphic. For optimal production precision, we require an SVG file format. Should you be unable to provide your graphic in SVG format, a vectorization fee will be assessed at an agreed-upon rate based on your design.

**Payment:** We accept all major debit and credit cards. Orders will not be confirmed until payment is received in full. For transactions exceeding \$5,000.00, payment must be made via bank transfer.

# HYDROFLASK

HydroFlask. Stay cool. Stay hot. Stay hydrated.

With HydroFlask's TempShield™ Technology, you can count on your drink staying cold for up to 24 hours or hot for up to 12. Crafted with durability in mind, each bottle, tumbler, and mug is built to withstand the roughest conditions, while remaining light-weight and easy to carry. The sleek, stylish designs come in a vast range of colors, so you can find the one that fits your personal style. Plus, HydroFlask is eco-friendly, making it a great choice for reducing single-use plastics and supporting a more sustainable future.
